HOW IT WORKS

Barista coffee, without the barista.

No kettle, no jars, no queue for the one person who knows how the machine works. Anyone can make a proper coffee in three steps.

1

Choose

Tap your drink on the eight-option touch panel: espresso, americano, flat white, latte and more.

2

Brew

Fresh beans are ground for your cup and brewed there and then, so every drink tastes as it should.

3

Enjoy

Lift out your cup and go. The fold-down cup stand means taller cups and glasses fit too.

INSIDE THE MACHINE

What it's doing for every cup

Precision grinder. Flat burrs with fine adjustment grind fresh beans for each drink.

Pressure boiler. A 315 ml boiler keeps up with a busy break time.

Fill from the top. Beans and powders load from above, without opening the door.

Measured dosing. The right amount of coffee every time, so cups taste the same.

EcoMode. Saves energy when the machine isn't being used.

Sensor protection. Sensors guard the grinder motor for a longer working life.

Why it beats a kettle and a jar of instant

	VITRO S1 EVO	KETTLE AND INSTANT
In the cup	**Freshly ground beans, every time**	Instant granules
Choice	**Eight drinks at a touch, espresso to mocha**	Whatever is in the cupboard
Consistency	**The same cup, whoever presses the button**	Depends who is making it
Speed	**Up to 108 espressos an hour**	Wait for the kettle, one at a time
Tidiness	**Grounds and drips held inside; the drawer goes in the dishwasher**	Wet spoons, spills and milk cartons

WHAT YOU CAN SERVE

Eight favourites, one touch.

Whole beans for proper espresso, plus two powder hoppers for milk and chocolate. The menu can be set up to suit your team.

- Cappuccino
- Caffè latte
- Espresso
- Americano
- White coffee
- Flat white
- Cortado
- Mocha
- Hot chocolate

Dark chips are the usual favourites at work.
