Cosmetal River 30 & 55 · High-Output Drinking Fountain

UP TO
55 L
AN HOUR

BUILT FOR BUSY PUBLIC SPACES

Drink. Fill. Refresh.

The high-output River for places that never stop. Up to 55 litres of chilled water an hour from a drinking jet, a bottle filler, or a hands-free pedal.

- Mains fed
- 30 or 55 L/h
- Foot pedal option
- Ice bank cooling
- Stainless option

55L
Chilled water per hour, up to

8–12°C
Cold, refreshing water

0
Bottles to order or lift

HOW IT WORKS

Keeps up with the busiest days.

Two output levels and a choice of taps, including a foot pedal, so the River 30 and 55 suit even the most demanding sites.

1

Press or pedal

Push the button, or use the foot pedal on the G63 for hands-free drinking.

2

Fill

The swan-neck tap fills water bottles and cups.

3

Refresh

Up to 55 litres an hour, chilled to 8–12°C by the ice bank.

INSIDE THE FOUNTAIN

What it's doing for every glass

Pre-filled ice bank. Filled and sealed at the factory, so there is nothing to evaporate or spill and installation is simpler.

Filter ready. Space inside for an optional filter, to improve taste and remove odours and impurities.

Fan-assisted condenser. Keeps the cooling going on the busiest days.

Steady chill. Water is held at 8–12°C for a refreshing drink every time.

Stainless option. An AISI 304 stainless steel body, ideal where hygiene matters most.

Special voltage. 230 V / 60 Hz versions available for ships and offshore sites.

Why it beats a bottled water cooler

	COSMETAL RIVER	BOTTLED COOLER
Supply	**Straight from the mains, so it never runs out**	Runs dry until the next delivery
Storage	**Nothing to store**	Stacks of full and empty bottles
Lifting	**None at all**	Heavy bottles to lift and swap
Running cost	**No charge per bottle**	Pay for every bottle delivered
Environment	**No plastic bottles or delivery vans**	Ongoing plastic and deliveries

HIGH DEMAND, NO PROBLEM

Made for the busiest places.

When lots of people need water at once, the River 30 and 55 deliver. Pick the taps to suit your site, including a pedal for hands-free use.

Drinking jet | Bottle filler | Foot pedal | Stainless steel

WHERE IT WORKS BEST

Schools
Plenty of water at break time.

Stations and airports
Fresh water for travellers.

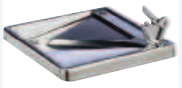
Shopping centres
Refreshment for shoppers.

Waiting rooms
A drink for visitors and patients.

ADD-ONS

Choose your taps

G61 swan-neck tap
Fills bottles and cups. Push button, or antiblock on request.



G62 drinking jet
Drink straight from the jet with a mechanical push button.

G62/61 jet and swan neck
Both taps together: drink from the jet or fill a bottle.

G63/61 foot pedal
Pedal-operated jet with a swan-neck tap, for hands-free drinking.

An optional filter fits inside the unit. An ambient (unchilled) River A is also available.
