AA First 1000C · Table Top Water Boiler

UP TO
186
CUPS AN HOUR

POWERFUL & COMPACT

Boil. Pour. Brew.

A high output table top boiler that delivers up to 186 cups of boiling water an hour, with a small footprint that fits under overhead cupboards.

- 31 litres an hour
- 5 litre draw-off
- Stainless steel
- Self diagnostic
- Touch-free option

186	5L	16.5cm
Cups of boiling water an hour	Rapid draw-off	Dispense height

HOW IT WORKS

Boiling water whenever you need it.

The 1000C is plumbed in with our installation rail, so it refills itself and keeps water hot and ready for the next brew.

1

Plumbed in

Connects to the mains water supply, so there is no kettle to fill at the sink.

2

Pull the lever

Hold your cup or jug under the tap and pull the conventional lever to pour.

3

Fill up fast

A 5 litre rapid draw-off fills flasks, jugs and teapots in one go.

INSIDE THE BOILER

What it's doing for every cup

High grade insulation. Keeps the heat in, which keeps running costs low.

Self diagnostic system. Helps spot faults quickly so the boiler is back in action sooner.

Compact footprint. 440 × 218 × 465 mm, so it fits under overhead cupboards.

Long life elements. Built to keep boiling day after day.

Stainless steel exterior. Durable and easy to wipe clean.

Touch-free ready. Works with the No Touch Adaptor for contactless dispensing.

Why it beats a kettle

	1000C BOILER	KETTLE
Output	**31 litres an hour, about 186 cups**	One kettle-full at a time
Ready to pour	**5 litres on rapid draw-off**	Wait for every re-boil
Filling	**Plumbed in, refills itself**	Filled by hand at the sink
Footprint	**Fits under overhead cupboards**	Needs worktop space and a socket
Best for	**Busy staff kitchens and tea points**	Small teams and occasional use

BUILT FOR BUSY TEA POINTS

Boiling water on tap, all day.

No queue for the kettle. The 1000C keeps up when everyone wants a brew at once, from the morning rush to the afternoon break.

Tea | Coffee | Flasks | Jugs

WHERE IT WORKS BEST

Offices
Hot drinks for staff and visitors, all day.

Staff kitchens
Fits under overhead cupboards.

Canteens
Keeps up with break-time rushes.

Meeting rooms
Boiling water on hand for every meeting.

ADD-ONS

Fit it right, keep it scale free

Installation rail & scale filter
One installation rail with all fixtures and fittings, plus a Brita C150 scale removal filter.

Brita C150 scale filter
Replacement scale filter for hard water areas, designed for large output hot water dispensers.

No Touch Adaptor
Hygienic, no contact dispensing. Simple and easy to install.

Our installation team can fit the boiler, rail and filter for you.
