Borg & Overström C2 / C3 · High-Capacity Hospitality Tap

UP TO
80 L/h
CHILLED

BUILT FOR BUSY BARS AND CANTEENS

Pour. Serve. Repeat.

Up to 80 litres an hour of chilled, sparkling and ambient filtered water from familiar chrome handles, glass after glass.

- Chilled
- Sparkling
- Ambient
- 2 or 3 taps
- Chrome finish

80L
Chilled water per hour

2°C
Chilled and sparkling

30cm
Dispense height (C3)

HOW IT WORKS

As familiar as pulling a pint.

The C2 and C3 connect to your water supply and chill it under the counter, so there are no bottles to buy, chill or store.

1

Pull

Familiar, refined faucet handles that every member of staff knows how to use.

2

Fill

A tall dispense height of up to 300 mm takes carafes, jugs and water bottles.

3

Serve

Up to 80 litres an hour at a consistent 2°C, even at the busiest service.

INSIDE THE TAP

What it's doing for every glass

ProCore+® system. A compact, high-capacity chiller unit sits out of sight under the counter.

Totality® filtration. Reduces sediment, odours, chlorine and microplastics for clean, crisp water.

Eco refrigerant. Uses eco-refrigerant gas only, for a lower environmental impact.

DryChill® cooling. Airless, rapid chilling that reduces the risk of contamination.

DeepSparkle®. Sparkling water with a long-lasting fizz, on sparkling models.

UV-C option. Viovandt® UV-LED purification for extra peace of mind.

Why it beats bottled water

	C2 / C3	BOTTLED WATER
Supply	**Straight from the mains, so it never runs out**	Runs out until the next order arrives
Storage	**Nothing to store or chill**	Cases taking up fridge and cellar space
Lifting	**None at all**	Heavy cases to carry and stack
Running cost	**No charge per bottle**	Pay for every bottle you buy
Environment	**Refillable carafes, no single-use plastic**	Ongoing plastic and glass waste

HOSPITALITY READY

From the bar to the table.

Choose a two-tap C2 or three-tap C3, and pair it with a large stainless-steel drip tray for a robust refill station front or back of house.

Two-tap C2 | Three-tap C3 | Chrome finish | Stainless drip tray

WHERE IT WORKS BEST

Restaurants
Chilled or sparkling water for every table.

Bars
Fast refills behind the bar.

Canteens
Keeps up with the lunchtime rush.

Back of house
Quick carafe and jug replenishment.

ADD-ONS

Make it your own

Stainless-steel drip tray
A large, robust tray that turns the tap into a full refill station.

DeepSparkle® CO2 refills
Keep sparkling models topped up. Empty cylinders go in standard steel recycling.

Bluetooth® alarmed waste kit
Sounds an alarm at a high water level and switches the control panel off.

Viovandt® UV-C LED
Optional, chemical-free UV purification that reduces bacteria and viruses.

C2 comes as chilled & ambient or chilled & sparkling. C3 gives all three.

SPECIFICATION & OPTIONS

Buy it or lease it.

Models	**Borg & Overström C2 (2 taps), C3 (3 taps)**
