Cosmetal River UP · Wall-Mounted Drinking Fountain

SAVES
Floor
SPACE

COMPACT AND WALL MOUNTED

Mount. Drink. Refresh.

All the benefits of the floor-standing River in a compact wall-mounted unit, fitted at a height that suits everyone, including wheelchair users.

- Wall mounted
- Chilled 8–12°C
- Accessible height
- Ice bank cooling
- Stainless option

55L
Chilled water per hour, up to

8–12°C
Cold, refreshing water

50cm
Tall, so it keeps floors clear

HOW IT WORKS

Fresh water at the right height.

The River UP fixes to the wall on a special bracket, so it takes up no floor space and can be set at the height your users need.

1

Press

Push the button for a drinking jet. No cups needed.

2

Fill

Add a swan-neck tap to fill bottles and cups too.

3

Refresh

Up to 55 litres an hour, chilled to 8–12°C by the ice bank.

INSIDE THE FOUNTAIN

What it's doing for every glass

Pre-filled ice bank. Filled and sealed at the factory, so there is nothing to evaporate or spill and installation is simpler.

Filter ready. Space inside for an optional filter, to improve taste and remove odours and impurities.

Adjustable height. The wall bracket lets you set the height to suit your users.

Steady chill. Water is held at 8–12°C for a refreshing drink every time.

Stainless option. An AISI 304 stainless steel body, ideal where hygiene matters most.

Accessible design. Its shape and height make it easy for wheelchair users.

Why it beats a bottled water cooler

	COSMETAL RIVER	BOTTLED COOLER
Supply	**Straight from the mains, so it never runs out**	Runs dry until the next delivery
Storage	**Nothing to store**	Stacks of full and empty bottles
Lifting	**None at all**	Heavy bottles to lift and swap
Running cost	**No charge per bottle**	Pay for every bottle delivered
Environment	**No plastic bottles or delivery vans**	Ongoing plastic and deliveries

SUITABLE FOR EVERYONE

Off the floor, within reach.

A compact cooler that keeps corridors clear. Its design and adjustable height make it easy to use for everyone, including people with disabilities.

Wall mounted · Drinking jet · Bottle filler · Stainless steel

WHERE IT WORKS BEST

Corridors
Fresh water without blocking the way.

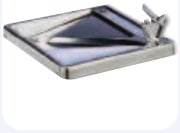

Schools
Set at the right height for pupils.

Healthcare
Accessible water for patients and visitors.

Waiting rooms
A drink while people wait.

ADD-ONS

Choose your taps

G62 drinking jet
Drink straight from the jet with a mechanical push button.

G62/61 jet and swan neck
Both taps together: drink from the jet or fill a bottle.

Optional filter
Fits inside the unit to improve taste and remove odours.

Wall bracket
Fixes the unit securely at the height you need.

Available in a 30 or 55 litre per hour version, in grey or stainless steel.
