Ikon Classic Cold Tap · FWC Signature Tap

UP TO
11.5 L
AN HOUR

OUR SIGNATURE TAP

Pour. Chill. Serve.

A bar-style chrome tap for your counter, with filtered water on demand. Add our quiet UC800M chiller under the counter for ice-cold water.

- Filtered water
- Bar-style dispense
- Optional chiller
- Illuminated pod
- Drip tray included

11.5L
Chilled water an hour (UC800M)

450mm
Polished chrome column

0
Bottles to order or lift

HOW IT WORKS

Bar-quality water, straight from the tap.

The Ikon sits on your counter like a beer font. The filter and chiller sit out of sight in the cupboard below, connected to your mains water.

1

Filter

Mains water passes through a filter that removes chlorine taste and smell.

2

Chill

The UC800M under the counter chills it in a stainless steel tank.

3

Pour

Pull the chrome handle for filtered, chilled water on demand.

INSIDE THE SYSTEM

What it's doing for every glass

Stainless steel tank. The UC800M keeps chilled water in a high-capacity stainless steel reservoir.

Adjustable temperature. Set the water as cold as you like it.

Protected supply. Pressure reducing valve, non-return valve and water block fitted.

Quiet and discreet. The chiller sits in the base cupboard, built with ventilation in mind.

Filtered. A 1-micron filter on the installation rail removes taste and smell.

Compact, low power. The chiller fits in standard under-counter spaces.

Why it beats bottled water and jugs

	IKON TAP	BOTTLES AND JUGS
Supply	**Mains fed, never runs out**	Order, store and lift bottles
Temperature	**Chilled on demand**	Room temperature, or fridge space
Taste	**Filtered for chlorine taste and smell**	Varies with each bottle
Presentation	**A chrome bar tap your guests notice**	Plastic bottles on the counter
Waste	**No single-use plastic**	Bottles to recycle every week

MADE FOR HOSPITALITY

Water served like it matters.

The Ikon brings a hospitality-style pour to any counter. The chiller stays hidden underneath, so all your guests see is a polished chrome tap.

Chrome finish **Illuminated pod** Drip tray

Undersink chiller

WHERE IT WORKS BEST

Bars and pubs
Water on tap beside the beer fonts.

Restaurants
Fill table jugs in seconds.

Hotels
A smart pour at the bar or reception.

Offices
A feature tap for the kitchen.

ADD-ONS

Choose your setup

UC800M undersink chiller
Up to 11.5 litres of chilled water an hour, hidden in the cupboard.

Installation rail
Compression fitting, 1-micron filter, water block, PRV and non-return valve.

Replacement filters
Keep the water tasting fresh, removing chlorine taste and smell.

Illuminated badge pod
Light up the pod with your own branding.

Available with or without the chiller, and with or without installation.
