HOW IT WORKS

Easy to use, easy to restock.

Customers choose, pay and collect. Operators get pull-out trays that tilt for easy restocking.

1

Choose

Pick a selection on the keypad, or use direct selection buttons where fitted.

2

Pay

Coins, notes or cashless card systems, depending on the payment kit fitted.

3

Collect

An optional delivery sensor checks the product has actually been vended.

INSIDE THE SNAKKY MAX

What it's doing for every sale

Tilting trays. Pull-out trays tilt for easy access when restocking.

Vend detection. Delivery area sensor confirms each vend (option).

Remote monitoring. GSM kit available for remote monitoring.

Separate payment compartment. Payment systems slide out on their own, away from the chilled products.

16-bit electronics. Automatic setup and sales statistics.

Banks with others. Pairs with Kikko Max, Astro and Zenith machines.

Snakky Max or Snakky?
