UC800M

Undersink Chiller

Our versatile and reliable undersink chilling unit. Designed for installation in under-counter cabinets, typically near a sink with a drain. The UC800M can be connected to a range of our products including fountains and taps. Quiet and discreet, this unit features a high capacity stainless steel cold water tank. Dispenses up to 11.5ltrs/h of chilled water.

- 11.5ltrs/h of chilled water
- Compact design for all under counter spaces
- Built with ventilation in mind
- Stainless steel cold water tank
- 1/4” push fit connections

Accessories & More

Installation Rail

Includes compression fitting, 1-micron green filter, water block, copper pressure reducing valve & non-return valve.

Filters

Range of filters and filter housings that are compatible with our machines. Removing taste & smell of chlorine as well as any contaminants.

Ezytap 7800(T) & 8800(T)

The UC800M is included as part of the Ezytap 7800(T) and Ezytap 8800(T). Supplying the cold water for our popular electronic taps.

Ezytap AC800

The Ezytap AC800 dispenses ambient mains water, and uses the UC800M for chilled water dispensing.
